

## Supporting Deerhound Health

### ***HEART TESTING FOR DOGS OVER 4 YEARS OLD AT THE LIMITED SHOWS***

At the North and South Limited Shows in September 2015 the club are organising for Deerhounds (over 4 years old) to have their hearts scanned. We are looking for dogs who have not been scanned before and dogs which were scanned last year and were tested as “normal” or “equivocal”. This is part of the Deerhound Heart Study which aims to determine breed specific heart measurements. Data from this study will enable vets in the future to make earlier and more accurate diagnosis of Dilated Cardiomyopathy (DCM) heart conditions.

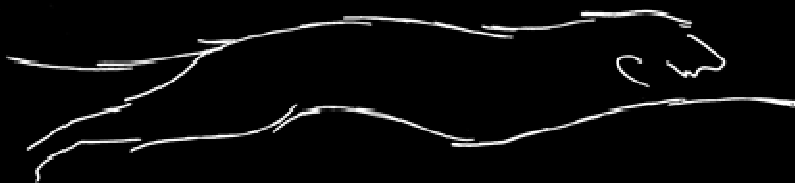

If you would like to have your dog scanned please contact Sarah Helps (Tel: 01494 727 584 or [beardswoodhounds@btinternet.com](mailto:beardswoodhounds@btinternet.com)) indicating your preferred time. Appointments will be given on a first come first served basis.

Emily Dutton the veterinary surgeon undertaking this study requires a photocopy of your dog's pedigree. She also needs to know an accurate weight of your dog (in kg). Please note that you don't need to compete at the Limited Shows to have your dog(s) scanned and all results will be passed directly to you and held in absolute confidence

**PLEASE SEE OVER FOR THE TIMES AVAILABLE**

# Supporting Deerhound Health

Eight dogs per show can be scanned - times given in the table below.

TIME	
09.00 – 09.40	Dog 1 scanned
09.40 – 10.20	Dog 2 scanned
10.20 – 11.00	Dog 3 scanned
11.00 – 11.40	Dog 4 scanned
